NOVIKONTAS MARITIME COLLEGE

Modern Educational Institution for ambitious Ship's Officers

Novikontas Maritime College was founded in 2009. Formal accreditation was held in years 2013/2014 when the College's quality management system, educational programs and facilities were evaluated on the highest marks and the College has obtained the accreditation for the longest available term. This year the College has been passing through re-accreditation process by international accreditation commotion and again was evaluated on the highest marks and obtained the longest available term of Accreditation

Besides the systematical process of accreditation, conducted by Ministry of Education and Science Republic of Latvia the College also passes audits by Ministry of Transports (represented by Maritime Administration of Latvia) on annual basis. The aim of this kind of audits is to verify, that the College continuously satisfies the regulations of the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, as amended. The convention regulates on the international level the minimum qualification standards of seafarers.

Today the College offers modern and high-quality international education for anyone who wants to connect their lives with the field of the maritime industry. Novikontas is one of the most modern educational institutions in Europe that offers high-quality international education and prepares maritime specialists in the fields of "Marine Navigation" and "Marine Engineer". The main advantage of Novikontas Maritime College is an emphasis on both theoretical and practical professional knowledge and skills acquisition. The educational process consists of 20% theory and 80% of the practice.

Novikontas Maritime College offers 100% guarantee to their graduates in getting a stable job in one of the world's merchant fleet companies.

Ship engineers gain knowledge and skills by training on real equipment and modern simulators possible to recreate sceneries from real ship technical situations.

Duration	Language	Availability
2Years 10Months	English	Admissions will start Soon
Full Time		

SHIP NAVIGATING OFFICERS

Program 'Maritime Transport' is a full-time, first level of professional higher education study program. Program is implemented in accordance with the study plan, ensuring the achievement of the program's goals and to prepare specialists for the labor market.

The study process is created in such a way to provide students with the opportunity to secure and practice the acquired theoretical knowledge on the ship, using equipment and documentation in the operating conditions of the ship. The studies consist of a theoretical and a practical part in college and at sea. The theoretical part includes: lectures and consultations at the College, and the use of modern communication tools such as the Novikontas Maritime College Information System (NovIS), email and other tools (e.g. Zoom, Google meet, etc.). The practical part includes: trainings on simulators, trainings in Novikontas Safety and Survival Theatre, maritime internship, as well as filling and defending the onboard training record book.
